

Wisconsin Coalition Against Sexual Assault Regional Advocacy & Outreach Trainings

DAY ONE: Exercise Your Sexual Assault Advocacy Skills

We commonly hear from SA advocates who don't have opportunities to practice and improve their advocacy skills. This scenario-based training will allow advocates to practice their direct advocacy skills in a supportive environment. WCASA staff & volunteers will lead small-group simulations for advocates to practice in a variety of settings, including a simulation with SANE.

10:00 – 10:15	Welcome & Introductions
10:15 – 12:15	Forensic-Medical Advocacy Simulation <i>Practice advocacy skills in medical setting with SANE</i>

DAY TWO: Build a Sexual Assault Outreach Plan

With the increase in VOCA funding and SA staffing, programs are looking for support to connect with primary sexual assault victims. This hands-on training will help advocates identify how to connect with sexual assault survivors and develop an outreach plan for the agency.

**We strongly recommend programs send two staff to support plan development and implementation.*

8:00 – 9:00	Sexual Assault Outreach Basics <i>Introduction to outreach best practices & mapping exercise</i>
